PROFILE

Information Systems Graduate with a strong interest in Data Analytics, Business Analysis, and System Analysis. Experienced in automating and integrating large scale procurement data using Python, cleaning and structuring data, and developing KPI driven visualizations. Skilled in Python, SQL, Excel, data preparation, and visualization, with a focus on turning business needs into practical and actionable insight.

WORK EXPERIENCE

Teaching Assistant – Data Mining Feb 2026 – Jun 2026
Institut Teknologi Nasional Bandung
Department of Information Systems

- Mentored students in applying machine learning workflows to real world analytical problems, from data preparation and exploratory data analysis to predictive modeling.
- Facilitated hands on laboratory sessions and provided technical guidance on data analysis and machine learning implementation.

Jun 2025 – Aug 2025

Data Analyst Intern
PT. Telekomunikasi Indonesia
Group Procurement Center

- Automated the integration and processing of 10+ large scale procurement datasets containing thousands of records, reducing data preparation time from up to 8 hours to just a few minutes.
- Cleaned and structured raw data for KPI aligned visualizations to support data driven decision making.

Teaching Assistant – Database II Feb 2025 – Jun 2025
Institut Teknologi Nasional Bandung
Department of Information Systems

- Mentored 20+ students in transforming abstract business requirements into optimized
- Reviewed student projects and provided technical feedback on SQL query optimization and database implementation.

LEADERSHIP & VOLUNTEER EXPERIENCE

Head of Innovation and Business Development Division Jun 2025 – May 2026
Information System Student Association

- Increased division revenue by 50% through customer needs analysis and targeted business initiatives.
- Developed and implemented business initiatives to improve transaction processes and support the division's revenue growth.

Steering Committee – Event Division Mar 2025 – Apr 2025
Graduation Ceremony 2025

- Oversaw graduation ceremony planning and execution, ensuring alignment with timelines and operational needs.
- Coordinated with the Head of Event Division to support decision making and smooth event execution.

PROJECTS EXPERIENCE

Multiplatform Sentiment Analysis

- Analyzed 172,050 comments from Facebook, Instagram, TikTok, X, and YouTube to classify sentiment.
- Compared machine learning and deep learning performance for sentiment classification.

Develop an AI Agent Using Langflow

- Developed an AI powered sentiment analyzer using Langflow and LLM workflows to analyze customer product reviews and YouTube comments and transcripts from English and Indonesian podcasts.
- Integrated text extraction, prompt engineering, and structured outputs to generate reliable sentiment insights while minimizing AI hallucinations.

Occupational Health and Safety Information System

- Analyzed business requirements and stakeholders, documented BRD, FRD, and user stories, and developed business process models, UML diagrams, and ERD to translate business needs into system requirements.

EDUCATION

Institut Teknologi Nasional Bandung Sept 2022 – Sept 2026

Bachelor's Degree in Information Systems

GPA 3.73/4.00

COURSES & CERTIFICATION

- **Business Analytics with Excel** – Simplilearn *Certificate*
- **Deloitte Australia Data Analytics Job Simulation** – Forage *Certificate*
- **Business Analysis & Process Management** – Coursera *Certificate*
- **Getting Started with Data** – IBM SkillsBuild *Certificate*
- **Data - AI Agent for Data Analysis** – Hacktiv8 & IBM SkillsBuild *Certificate*
- **SQL (Advanced)** – HackerRank *Certificate*
- **Women in Tech: Python for Business Thematic Academy Digital Talent Scholarship 2024** – Puslitbang SDP3I *Certificate*

SKILLS

Soft Skills: Analytical Thinking, Problem Solving, Data Driven Decision Making, Attention to Detail, Communication & Cross Functional Collaboration, Teamwork, Adaptability.

Hard Skills:

- **Programming & Database:** Python, SQL, Relational Database Design, SQL Query Optimization
- **Data Analytics:** Data Cleaning, Data Wrangling, EDA, Data Mining, Sentiment Analysis, Predictive Modeling
- **Business & System Analysis:** Requirements Analysis, Stakeholder Analysis, Business Process Modeling, BRD, FRD, User Stories, UML, ERD.
- **Tools:** Google Colab, Jupyter Notebook, Power BI, Looker, Tableau, Excel, Draw.io, MySQL, SQL Server Management Studio
